Dear Mr. Johnson:

Re: The Disposal of Sludge from the
Cadmium, Zinc, and Tin Plating Operation
of the Penn Division of Johnson Controls, Inc.,
of Goshen, Indiana

This letter is in reference to the telephone conversation of
June 28, 1979, between Mr. Stan Leedy of Johnson Controls, Inc., and
Mr. Guinn Doyle of the Solid Waste Management Section.

You are hereby granted approval to dispose of 500 gallons per
month of the cadmium, zinc, and tin plating sludge from Johnson Controls
into the separate area of the Four County Sanitary Landfill, Operating
No. 25-2, Fulton County. This material is to be placed in an area separate
from the general refuse and must be covered with a clay-type soil at the
end of the working day.

Any necessary local approval must be obtained from the Fulton
County Health Department prior to disposal. This approval must be revoked
if the landfill fails to maintain compliance with Regulation SPC-18. This
waste must be transported by an SPC-17 permitted hauler.

If you have any questions regarding this matter, please contact
Mr. Tim Kelley of the Solid Waste Management Section at AC 317/633-0178.

Very truly yours,

Oral H. Hert
Technical Secretary

NOT SUITABLE FOR DISPOSAL AT ANY ELKHART

COUNTY LANDFILLS. STAFF SUGGESTED ADAMS

CTR. L.F. OR LAKE LAND DISPOSAL AS ACCEPTABLE

DISPOSAL SITES.

Oct. 26, '76 Received letter from Mr. Leedy. Company

will be drumming material & hauling to

Lakeland Disposal in their own company truck

6-28-79 Received a telephone call from Mr. Leedy requesting approval for sludge to go to Fair County.

7-3-79 Rough draft of approval letter was sent to the word center.

PROPOSED ~~LIQUID~~ WASTE HAULER Company truck SPC-17R?

ADDRESS _____

PROPOSED DISPOSAL TECHNIQUE

FEB 08 1984

Mr. Eric W. Haupt, Supervisor
Hazardous Waste Land Disposal Tax
Motor Fuel Tax Division
Department of Revenue

Dear Mr. Haupt:

Staff have verified that Johnson Controls, Inc., did not dispose of 17,312 lbs. of hazardous waste by means of landfilling during 1982. Johnson Controls, Inc., reported on-site land disposal of the waste in error on their 1982 Annual Report. The Company has resubmitted the information and staff have verified that no landfilling occurred at this facility in 1982.

Sincerely,

Karen E. Evans, Acting Chief
Resource Recovery & Planning Section
Division of Land Pollution Control
